Saturday

Teacher Reflection

Date:

What were the strengths and weaknesses of your lesson? How do you know?

Did your lesson "flow", or were there awkward transitions/too much off-task time by students?

What part of your lesson did you feel comfortable teaching? What are areas of development?

Did you focus on all the domains of reading, writing, listening, and speaking? What domains need more practice?

Which students need re-teaching? Which students achieved mastery?

If you were observing another teacher, what tips would you give yourself?

Teacher Reflection

Date:

What would you like to practice or implement tomorrow? What is the purpose, or your "why" for this?
